Running 6 500 watt halogens on a Coleman 2500 watt ...

ok so im building a carp shooting boat, and for lights I have 6 of those 500 watt halogen work lights, but the generator I have is a 2500 watt surge, so my question is will the generator be ok running that much wattage for 4 to 5 hours at a time? Also if not what will happenand what are the effects if I do do this? oh and i didnt know

Coleman Generators | eBay

Coleman generators are mechanical systems that are designed to convert motive power into electrical power

when there is an electricity outage. These Powermate generators may be stationary or portable, and they are built to operate on a petroleum-based fuel source.
