**How to Install a Split System Air Conditioner: 14 Steps**  
Most people hire a professional to install a split system air conditioner. However, if you have some experience with plumbing and electrical work, you can install the unit on your own. Each split system or ductless air conditioner is unique to its manufacturer, but this article explains the general instructions for installing a split system air conditioner.

**Cost to Install Split System Air Conditioner - Homewyse**

For a basic project in zip code 47474 with 1 unit, the cost to install a Split System Air Conditioner starts at \$2,941 - \$3,481 per unit. Actual costs will depend on job size, conditions, size options.

**What is a Split Air Conditioner? Split vs Packaged AC Units**

The easiest way to tell if you have a split air conditioning system is to see if you have two parts to your air conditioner. If you have one part inside, either in the attic or in a closet, then you have a split AC unit. If your air conditioner has only one piece (that is typically on the roof), and a piece of ductwork going into the roof, then you have a packaged unit.

**What is a Split Air Conditioner System? - Network**

**What is a Split Air Conditioner System?** A split air conditioner consists of an outdoor unit and an indoor unit. The outdoor unit is installed on or near the exterior wall of the room that you wish to cool. This unit houses the compressor, condenser coil and the expansion coil or capillary tubing. The sleek-looking indoor unit contains the cooling coil, a long blower and an air filter. **How is a Wall Split A/C Site Inspection Checklist**
