[Bulk packaging for drug products: Ignore at your own risk ...](#)

Give bulk packaging as much attention as you do your primary packaging. By Frank Biegansky.

Pharmaceutical companies carefully examine and follow FDA guidelines and CGMPs when choosing the container closure system for packaging drugs.

[Qualification and Validation of Single-Use Shipping Systems](#)

Stainless-steel tanks for bulk freezing and distribution between drug substance sites and drug product sites were the processing units of choice until recently, when the technology was challenged by SUT (9, 14, 15). It is important to note that there is a simpler supply chain with SUT shippers because there is no need to manage the return of empty tanks or to clean and verify them.

[Guidance 026 In-Process and Bulk Drug Product Holding Times](#)

[In-Process and Bulk Drug Product Holding Times](#)

Introduction This Guidance sets out guidelines for the determination and validation of in-process and bulk product holding times. Maximum allowable hold times should be established for bulk and in-process drug products (where applicable). Typically one lot can be used for validating hold times. Data to justify the hold time can be collected during
