Social issue - Wikipedia

Social stratification is a kind of social differentiation whereby members of society are grouped into socioeconomic strata, based upon their occupation and income, wealth and social status, or derived power (social and political). As such, stratification is the relative social position of persons within a social group, category, geographic region, or social unit.

Socioeconomics - Wikipedia

Socioeconomics (also known as social economics) is the social science that studies how economic activity affects and is shaped by social processes. In general it analyzes how societies progress , stagnate , or regress because of their local or regional economy, or the global economy .

Social, economic and political context in Uganda ...

Uganda has made significant social and economic progress in the last two decades. Uganda's Gross Domestic Product grew at an average annual rate of 7.1% from 1992 to 2011 well above the Sub-Saharan average (African Development Bank 2013). The high rates of growth were attributed to the rise of a dynamic service sector. However, between 2011 and 2012 Uganda's GDP fell to 3.2% (African

Social, economic, human rights and political challenges to ...

Introduction. This is the second in our series of four articles about mental health and the global agenda. The first paper addressed core conceptual issues in relation to mental health in low- and middle-income countries. 1 This second paper addresses social, economic, human rights and political challenges to global mental health.
