Education and Democracy - Macalester College
Education and democracy are inextricably linked in American social thought and practice. Democracy, in all of its historic and contemporary forms, has played a pivotal role in shaping conceptions of public education. How public education is imagined, scripted, and enacted is contested along philosophic, programmatic, and pedagogic dimensions in relation to competing conceptions of democracy

Democracy in Africa - Wikipedia

Democracy in Africa is measured by a variety of indexes primarily devised by Non-Governmental Organisations (NGOs), such as Freedom House's Freedom in the World index, and the Fraser Institute's Economic Freedom of the World index.

Democratic education - Wikipedia

Democratic education is an educational ideal in which democracy is both a goal and a method of instruction. It brings democratic values to education and can include self-determination within a community of equals, as well as such values as justice, respect and trust.

Democracy and Education - Wikipedia

Democracy and Education: An Introduction to the Philosophy of Education is a 1916 book by John Dewey. For Dewey, this distinction was largely a false one; like George Herbert Mead and Lev Vygotsky, he viewed the mind and its formation as a communal process.

Senegal - Democracy and Governance Fact Sheet | U.S. Africa Watch

Senegal has a reputation of being one of the few stable democracies in West Africa. This perception was confirmed by the recent 2012 elections marked by the third peaceful transition of power from one president to the other two of which took place following credible democratic elections.

Democracy, Human Rights and Governance | Senegal | U.S. Africa Watch

With this fair and credible election, Senegal reinforced its status as the vanguard of West African democracy, and may serve as an example to other African nations with leaders seeking to entrench themselves.

Why Does Democracy Need Education? - NBER

Across countries, education and democracy are highly correlated. We motivate empirically and then model a causal mechanism explaining this correlation. In our model, schooling teaches people to interact with others and

raises the benefits of civic participation, including voting and organizing. In
