Human Geography - Elsevier

human geography written in different languages; and the difficulty (indeed, sheer dubiousness) of being able to

identify definitive research questions, sequential paradigms, or key thinkers. It is tempting to define a common ground for human geography's intellectual core (as Hartshorne attempted), and wish to enforce this. Such a common ground might provide human geography with a sense

#### **WHAT IS HUMAN GEOGRAPHY? - University of Alberta**

Human geography is a branch of social science that focuses on the relationships between human societies and the built and natural environments in which they operate. Human geographers believe that understanding these relationships requires being attentive to the location, space and scale of social phenomena. A contextual approach is often adopted, in which academic theories are applied
