Treaty on the Non-Proliferation of Nuclear Weapons - Wikipedia

The Treaty on the Non-Proliferation of Nuclear Weapons, commonly known as the Non-Proliferation Treaty or NPT, is an international treaty whose objective is to prevent the spread of nuclear weapons and weapons technology, to promote cooperation in the peaceful uses of nuclear energy, and to further the goal of achieving nuclear disarmament and

Nonproliferation | Department of Energy

NNSA's Office of Defense Nuclear Nonproliferation works globally to prevent state and non-state actors from developing nuclear weapons or acquiring weapons-usable nuclear or radiological materials, equipment, technology, and expertise.

Bureau of International Security and Nonproliferation ...

The Bureau of International Security and Nonproliferation (ISN) is a bureau within the United States Department of State responsible for managing a broad range of nonproliferation and counterproliferation functions.

Nuclear Proliferation Safeguards - World Nuclear Association

The nuclear non-proliferation regime is much more than the NPT, although this is the pre-eminent international treaty on the subject. The regime includes treaties, conventions and common (multilateral and bilateral) arrangements covering security and physical protection, export controls, nuclear test-bans and, potentially, fissile material production cut-offs. The international community can

Nuclear Proliferation: The Role and Regulation of Corporations

The international community's approach to regulation related to nuclear weapons can be broken into three broad categories: treaty-based agreements, obligations imposed by the UN Security Council, and informal arrangements.

NONPROLIFERATION: Proliferation Threats | Council on ...

"The nonproliferation regime is like a pyramid scheme," says Joseph Cirincione, director of the Non-Proliferation Project at the Carnegie Endowment for International Peace. "It works as long as

Nuclear Nonproliferation: A Corroding International Regime ...

Risks to the international nuclear non-proliferation regime are growing. Nuclear challenges posed by Iran and North Korea are deepening, and other states might begin to hedge their bets with nuclear moves of their own in reaction to a more dangerous strategic environment.
