Written for the laboratory that accompanies the sophomore/junior level courses in Organic Chemistry, Zubrick provides students with a valuable guide to the basic techniques of the Organic Chemistry lab. The book will help students understand and practice good lab safety. It will also help students become familiar with basic instrumentation, techniques and apparatus and help them master the latest techniques such as interpretation of infrared spectroscopy. The guide is mostly macroscale in [The Organic Chem Lab Survival Manual: A Student's Guide to ...](#)

Written for the laboratory that accompanies the sophomore/junior level courses in Organic Chemistry, Zubrick provides students with a valuable guide to the basic techniques of the Organic Chemistry lab. The book will help students understand and practice good lab safety. It will also help students become familiar with basic instrumentation, techniques and apparatus and help them master the latest techniques such as interpretation of infrared spectroscopy. The guide is mostly macroscale in [Organic Chemistry Survival Tips - ThoughtCo](#) Organic chemistry is often considered the hardest chemistry class. It's not that it's impossibly complicated, but there is a lot to absorb, in both the lab and classroom, plus you can expect to do some memorization to succeed at exam time.
