[How to Make a Wooden Box With a Sliding Lid](#)
Test the fit of the lid by sliding in the lid from the front. The lid should be able to just freely move in and out. If it sticks, remove more wood from the bevels. The lid will eventually slide all the way in without sticking. Step 5: Although the lid now fits, we'll need to make a way to open the lid more easily. This could be as simple as gluing a small piece of wood to the front edge of

Help with a slide in lid for a box - FreeCAD Forum

I'm trying to work up a box with a slide in lid. Your basic five sides (not counting the lid) and I want slots around three of the sides so the lid can slide in there; the fourth side will be shorter. It will work sort of like sliding in a drawer.
