Planning and Planting a Vegetable Garden - The Spruce

A vegetable garden requires regular maintenance. Vegetables won't wait until it's convenient for you to water them, stake them or harvest them. Some tasks, like staking and mulching, can be done early in the season. Others, like watering, will be ongoing. The last thing you want to do is go through all this work starting your garden and then see your vegetables going to waste.

Growing your own vegetables is both fun and rewarding. All you really need to get started is some decent soil and a few plants. But to be a really successful vegetable gardener and to do it organically you'll need to understand what it takes to keep your plants healthy and vigorous.

Planning Your Vegetable Garden: Seed Starting Schedule

Developing a seed starting schedule is the last step in my yearly vegetable garden planning. Soon it will be time to sow some seeds and tend to the young seedlings under the lights. I find making up a schedule ahead of time makes it easy to know what seeds should be started each week.

Also, the schedule provides a record of when each seed was started and makes it easy to adjust from year to year.
