The book breaks with the view that the unofficial economy is simply a by-product of the official economy. It shows an unfolding interplay between these two economies, which moulds and limits both the dynamics and the direction of the process of change. In her final essay, Maria Los develops a theoretical model linking second economies with the process of marxist economic development. The key

Marxian economics - Wikipedia

Marxian economics, or the Marxian school of economics, is a heterodox school of economic thought. Its foundations can be traced back to the critique of classical political economy in the research by Karl Marx and Friedrich Engels.
